General Items:

Consider Special Event Street Closure Request for the Kansas Summer Spirit Festival – City Clerk Sarah Bodensteiner presented for consideration a request for approval of a 3-day street closure for the Kansas Summer Spirit Festival from Thursday, June 25 through Saturday, June 27, 2026. The requested closure is for Cherokee Street from 4th Street to 3rd Street. The proposed street closure would accommodate event setup, the festival activities—including vendor booths and a potential car show—and subsequent tear-down, pending approval. After speaking with the Chief of Police regarding the request, and considering the difficulties associated with opening and closing the road each day, the Police recommend that, if the closure is approved, the road be closed beginning on June 25, 2026, and remain closed through the festival’s conclusion on Saturday, June 27, 2026, rather than implementing daily closure periods. Frank Ramirez, Sam Moore and Lakei Evans associated with the Kansas Summer Spirit Festival answered questions from the Commission.

Commissioner Maxwell moved to approve the Special Event Street Closure Request for the Kansas Summer Spirit Festival with the condition that all appropriate licensing with FIFA is obtained. Commissioner Hollister seconded the motion and the motion was unanimously approved. Mayor Bauder declared the motion carried 5-0.

Resolutions:

Resolution B-2420 Adoption of Safe Routes to School Plan – Deputy Public Works Director Michael Stephan presented for adoption the Safe Routes to School Action Plan. The City of Leavenworth adopted the Vision Zero Action Plan back in 2024. That plan identified a number of potential projects and steps that the city could take to help eliminate serious injury and fatality crashes in our community. One of the recommendations was to complete a Safe Routes to School Action Plan. In 2025, the city applied for and was awarded a grant through KDOT for creating a Safe Routes to School plan. The grant covered 100% of the cost and last week, Kevin Kroll from Toole Design presented the finds. The plan identified improvements around the schools that will help improve access for students to walk, bike, and roll to school. The plan does give the city a much better chance of receiving additional grant funding to implement some of the findings/recommendations in the plan.

Commissioner Maxwell moved to approve Resolution B-2420 adopting the Safe Routes to School Plan, with the revisions ensuring the City of Leavenworth and school building names are listed correctly on all appropriate pages. Commission Hollister seconded the motion and the motion was unanimously approved. Mayor Bauder declared the motion carried 5-0.

Resolution B-2421 Community Development Block Grant Annual Action Plan – Community Development Coordinator Bradley Brandon presented for consideration the 2026-2027 Annual Action Plan. Leavenworth is an entitlement city that receives CDBG Funds and must submit an annual action plan with HUD. The report is composed of needs assessments of the community’s housing stock, homelessness issues, public facilities, infrastructure, and community development assets. The award figures at this time are projected, as Congress has not voted upon the funds and once that happens HUD will advise what the award amount will be and the true total award will be updated. The Community Development Advisory Board has voted for a pro-rata configuration once the true award total is given.

Commissioner Hollister moved to approve Resolution B-2421 adopting the 2026-2027 Annual Action Plan and submission of the plan to HUD. Commission Wilson seconded the motion and the motion was unanimously approved. Mayor Bauder declared the motion carried 5-0.

Bids, Contracts and Agreements:

Consider Award of Re-Bid for 2026 Janitorial Services Contract – Public Works Director Brian Faust presented for consideration award of bid for the ‘re-bid’ of the 2026 Janitorial Services Contract. In December 2026, the city contracted with City Wide Facility Solutions out of Kansas City to provide cleaning services for four city facilities. The contract began on January 5, 2026, and work to date has been acceptable. The issue that immediately arose was that City Wide did not include ‘consumable supplies’ – i.e. toilet paper, paper towels, trash bags, etc. in their bid. Prior to the award to City Wide, staff specifically asked if their bid included supplies and they answered it did. After the award, they stated supplies included all the cleaning supplies but NOT ‘consumables’. City Wide notified the city that there would be additional

costs every month to provide the consumables. At that point, staff felt it best to rebid the service and explicitly state that the bids were to include all supplies – including consumables. The project specifications were prepared, and the project was advertised for bid in the Leavenworth Times and Euna Procurement. Bids were opened on April 16, 2026.

Commissioner Maxwell moved to award the bid for the 2026 Janitorial Services at City Hall, WPC, Animal Control and the Municipal Service Center to Woodley Building Maintenance, in an amount not to exceed \$73,788.00. Commissioner Hollister seconded the motion and the motion was unanimously approved. Mayor Bauder declared the motion carried 5-0.

Consider Award of Bid for CDBG Sidewalk Improvements Project – Public Works Director Brian Faust presented for consideration award of the 2026 CDBG Sidewalk Improvements Project on Pottawatomie Street. This project is part of the on-going sidewalk repair and replacement work. For 2026, funding is available to complete a section of sidewalk on Pottawatomie Street from 4th Street and 2nd Street using only Community Development Block Grant funding. By using CDBG funding, this project is subject to federal regulations and environmental review and request for release of funds from HUD. Project plans were prepared and advertised for bid. Bids were opened on April 22, 2026. The sidewalk improvements are expected to begin no later than May 11, 2026, with completion in 30 calendar days. The project consists of new ADA compliant ramps, sidewalks, curbs, and drive entrances along the north and south sides of Pottawatomie Street from 4th east to 2nd Street. The total project cost is \$63,213.60. There is CDBG funding available in the amount of \$84,682. The CDBG funding will cover the cost of the project.

Commissioner Maxwell moved to award the bid for the 2026 CDBG Sidewalk Improvements Project on Pottawatomie Street between 4th Street and 2nd Street to Sands Construction, LLC, in an amount not to exceed \$63,213.60 with an additional 10% contingency (approximately \$6,000) to cover issues that arise in the field. Commissioner Hollister seconded the motion and the motion was unanimously approved. Mayor Bauder declared the motion carried 5-0.

Commissioner Maxwell stated he needed to recuse himself from the next item and took a seat in the audience.

Consider Award of Bid for Concrete Intersection Reconstruction Component of the 2026 Pavement Management Program – Public Works Director Brian Faust presented for consideration award of bid for the Concrete Intersection Reconstruction program of the 2026 Pavement Management Project. The components of the 2026 Pavement Management Program include: mill and overlay, micro-surfacing, and concrete intersection reconstruction. There are several concrete intersections across the city that have reached a point where complete reconstruction is needed. In 2026, the two intersections scheduled for reconstruction are 20th and Dakota and 18th and Ottawa. The project plans were prepared, and the project was advertised for bid in the Leavenworth Times and Euna Procurement. Bids were opened on April 22, 2026. Linaweaver Constructions met all the bidding requirements and their prior work with the city has been completed within the required timeframe and specifications. Work is expected to begin as soon as possible and shall be completed by August 11, 2026. Only one intersection at a time can be closed with a maximum closure length per intersection of 28 days. The city included an incentive clause for opening an intersection early and a liquidated damages clause for failure to open an intersection after 28 days.

Commissioner Hollister moved to award the bid for the 2026 Pavement Management Program Concrete Intersection Reconstruction Program with Linaweaver Construction in an amount not to exceed \$195,635.00 with up to an additional \$21,000 in incentives along with an additional 10% contingency (approximately \$19,500) to cover issues that arise in the field. Commissioner Wilson seconded the motion and the motion was unanimously approved. Mayor Bauder declared the motion carried 4-0.

Commissioner Maxwell returned to the dais and rejoined the meeting.

Consent Agenda:

Commissioner Wilson moved to approve claims for April 10, 2026 through April 23, 2026, in the amount of \$1,199,945.88; Net amount for Payroll #8 effective April 17, 2026 in the amount of \$429,650.06 (Includes Police & Fire Pension in the amount of \$7,966.80). Commissioner Hollister seconded the motion and the motion was unanimously approved. Mayor Bauder declared the motion carried 5-0.

Other:

City Manager Scott Peterson:

- CIP Meetings have wrapped up, and we are gearing up to go into the next step of the budget process

Commissioner Hollister:

- Shout out to The Guidance Center for all the work they do
- Mentioned a Mental Health Walk will be occurring

Commissioner Pittman:

- Spoke on the oversight committee; ensuring KOMA is met in full so the public can attend; and noting we remain focused on being transparent and that is a process to get going

Commissioner Wilson:

- Attend new commissioner training by the League of Kansas Municipalities, very good training; well worth the time and glad to meet other commissioners

Mayor Bauder:

- Have a great week

Adjournment:

Commissioner Maxwell moved to adjourn the meeting. Commissioner Hollister seconded the motion and the motion was unanimously approved and the meeting was adjourned.

Time Meeting Adjourned 6:54 p.m.

**FINAL CHANGE ORDER
6TH AND WALNUT STORMWATER REPAIR**

Project 2025-025

May 12, 2026

Prepared by:

Reviewed by:

Brian Faust, P.E.,
Director of Public Works

Scott Peterson,
City Manager

ISSUE:

Consider approval of a final change order with Baker Construction for the 6th and Walnut Stormwater Improvement Project.

BACKGROUND:

In 2025, a number of residents in the area of 6th and Walnut expressed concern over the stormwater conveyance system. In addition to blockage of the pipe and associated backups during rain events, a large sink hole developed in a yard that was a safety hazard to the area.

Staff felt it was critically important to address both the open sink hole and the stormwater backups prior to the 2026 spring rains. Staff met with 3 local contractors on-site to discuss the best options for a temporary repair. Three quotes were received with the lowest quote from Baker Construction for \$18,850. This amount was well within the City Manager's authority and Baker was instructed to start the project as soon as possible.

Once the project started and both the stone arch under Walnut and the existing corrugated piping were uncovered, significant changes to the project scope were needed. Changes included:

- The replacement pipe needed to be upsized from a 60" to an 84" pipe to better match the inside width of the stone arch.
- Instead of 1-20' section of pipe, 2 sections were needed to address slope/grading challenges at the site.
- The existing arch contained over 2' of mud and debris that needed to be cleaned out.
- A concrete collar to tie the new pipe to the stone arch along with the addition of shot rock at the pipe outflow.
- As the equipment was already on-site, the repairs were done to make this a permanent improvement instead of a temporary repair.

With the number of unknowns, staff felt the best way to handle the changes was by tracking time and materials used for the project. The project was completed in late March and the final cost was significantly higher than the original estimate.

BUDGET IMPACT:

The 2026 budget includes roughly \$1.3M from the stormwater fee to address stormwater related projects across the city.

Original Cost Estimate:	\$18,850
<u>Final Change Order Amount:</u>	<u>\$44,518.13</u>
Final Project Cost:	\$63,368.13

Funding is currently available in the Storm Water Capital Projects Fund to cover the cost of this final change order. A positive from the project and the cleaning of the stone arch was that the arch is in good shape and there are no repairs needed to this crossroad structure.

RECOMMENDATION:

Staff recommends that the City Commission approve the final change order with Baker Construction in the amount of \$44,518.13. This will bring the total project cost to \$63,368.13.

Storm Water Capital Projects Fund - Priority Repair & Maintenance Projects

Purpose / Description:

There are numerous storm water projects needing to be addressed due to structural failures / aging infrastructure. Causes for failures include: (1) Corrugated Metal Pipe (CMP) that is rusting out, (2) brick storm inlets that are collapsing, and (3) aging stone / brick arches that have exceeded their serviceable life. These projects do not typically involve large areas (like the 2nd and Chestnut project) but can be expensive to resolve.
